PROFESSIONAL SUMMARY

Dedicated Full-Stack Developer and founder with 3+ years of hands-on experience building scalable, production-ready web and mobile applications. Founder and CEO of **TickiSpot** — Nigeria's all-in-one event platform combining ticketing, live streaming, real-time chat, analytics, and AI-powered tools. Specialised in the MERN stack (MongoDB, Express.js, React.js, Node.js) with deep expertise in real-time systems (Socket.io, Agora RTC), payment gateway integration (Paystack, Stripe), and AI/LLM product development. Passionate about clean architecture, responsive design, and shipping products with measurable real-world impact across African markets.

WORK EXPERIENCE

TickiSpot

2024 – Present

Founder & CEO · Full-Stack Developer

- Founded and built Africa's event destination platform — an all-in-one SaaS combining event creation & ticketing, live streaming (Agora RTC), real-time attendee chat (Socket.io), organiser analytics, and QR-code check-in.
- Engineered a production-grade escrow payout pipeline with Paystack Transfers API, Bull job queues, and webhook-driven reconciliation for secure organiser payouts.
- Developed TickiAI — a dual-mode AI feature set: an organiser assistant (event creation wizard, 3-step sub-flow with Groq LLM) and an attendee event discovery engine with injected contextual awareness.
- Architected the MERN backend with role-based auth middleware, feature/plan gating, Mongoose change-detection, Resend email services, and Cloudinary media management.
- Designed the full product UI with a custom Tailwind design system (Geist font, pink #f43f8e brand, rounded-2xl cards) across 20+ pages including admin panel, analytics dashboard, and livestream interface.
- Integrated Paystack payment gateway for ticket sales; implemented per-tier ticket controls, free overrides, and custom labels.
- Live at tickispot.com serving event organisers and attendees across Nigeria.

Freelance Web & Mobile Developer

2024 – Present

Full-Stack Developer · Remote / Contract

- Built responsive web applications using React.js, Next.js, Tailwind CSS, and Bootstrap for multiple clients across e-commerce, business, and media verticals.
- Developed RESTful APIs and scalable backend systems with Node.js, Express.js, MongoDB, and MySQL.
- Delivered cross-platform mobile apps using React Native + Firebase with REST API integrations.
- Designed and deployed admin dashboards for product management, user analytics, and real-time reporting.
- Integrated secure payment gateways (Stripe & Paystack) across multiple client e-commerce platforms.
- Delivered and managed IPTV solutions: reseller panels, app rebranding, and scalable XUI IPTV server infrastructure.

FEATURED PROJECTS

TickiSpot — Nigeria's All-in-One Event Platform

2024–2025

MERN · Socket.io · Agora RTC · Paystack · Groq LLM · Tailwind CSS · Vite

- Full SaaS platform with event creation, multi-tier ticketing, QR check-in, live streaming, real-time chat, organiser analytics dashboard, and AI-powered tools.
- Built TickiAI for event creation assistance and attendee event discovery using Groq as the LLM provider.

- Escrow payout system with Paystack Transfers, Bull queues, and webhook-driven payment reconciliation.
- Live at tickispot.com · GitHub: github.com/dcrony

E-Commerce Skincare Platform2024–2025

MERN Stack · Stripe · Paystack · Cloudinary

- Full-featured e-commerce store with product catalogue, user authentication, shopping cart, secure payment checkout (Stripe & Paystack), and a feature-rich admin panel.
- Delivered for a skincare brand client; commended for exceeding expectations in design and functionality.

IPTV Solutions & Reseller Infrastructure2023–2024

Node.js · XUI Panel · Custom Branding

- Designed and deployed scalable IPTV reseller panels, performed app rebranding, and configured XUI IPTV servers for multiple clients.
- Built reseller management backends with subscription tracking and multi-tier user access.

TECHNICAL SKILLS

Frontend	React.js · Next.js · Tailwind CSS · Bootstrap · HTML5/CSS3 · JavaScript (ES6+) · TypeScript · Redux · Vite
Backend	Node.js · Express.js · PHP · REST APIs · WebSockets (Socket.io) · Bull Queue · JWT Auth
Mobile	React Native · Firebase · Flutter
Databases	MongoDB (Mongoose) · MySQL · Firebase Firestore
AI / LLM	Groq API · Anthropic Claude API · LLM prompt engineering · AI feature integration
Payments	Paystack (Transfers, Webhooks, Escrow) · Stripe
Media / Streaming	Agora RTC · Cloudinary · Unsplash API · Resend Email
DevOps / Tools	Git · GitHub · VS Code · Postman · Figma · Vercel · Webpack · Jest
Other	SEO Optimisation · Responsive Design · Graphic Design · Web Performance

EDUCATION

Full-Stack Web Development Bootcamp2023

Hands-on training in full-stack technologies, agile development, and project-based learning.

Baptist High School — Secondary Education2017 – 2023

Began self-teaching web development (HTML/CSS/JS) during secondary school.
